JOTIBA JADHAV

Business Analyst · Strategy & BI · Health Insurance Distribution

Mumbai, India · Open to remote | jadhavjotiba373@gmail.com | linkedin.com/in/jotiba-jadhav-3406871b5
Portfolio: jjadhav373.github.io/portfolio | GitHub: github.com/jjadhav373

SUMMARY

Business Analyst in the Strategy team at Turtlemint (NSE-listed insurtech), promoted from intern to analyst in 6 months. I own the reporting that Health sales leadership runs on, design and back-test incentive contests for distribution partners and RMs, and automate the operations behind them with SQL, Google Apps Script and AI agents. Experienced in remote, async work with stakeholders from leadership to field sales.

EXPERIENCE

Turtlemint Fintech Solutions · Mumbai · B2B2C health insurance distribution

Business Analyst, Strategy — Aug 2026 – Present

- **Contest design:** Designed and launched 4 incentive programs for Oct–Dec 2026 across distribution partners (DPs), RMs and City Heads: slab structures, insurer weightage, ticket-size rules and qualifiers.
- **Back-testing:** Back-tested the flagship 6-slab DP contest on the prior quarter's data, projecting 457–738 qualifying partners and validating payouts against the annual contest budget before launch.
- **Contest operations:** Run monthly contests end to end across 6+ insurer partners: qualifier tracking, MIS mapping, result validation, payout audits and closure reports for Audit and Business.
- **Retention:** Built the target list of DPs active in other products but not Health, with documented selection logic; lead a retention plan across 4 active-base cohorts.
- **Strategy analysis:** Competitor payout-grid benchmarking, loss-ratio analysis across 3 insurers, insurer-by-city premium trends, CleverTap campaign impact and contest impact reviews (e.g. a 294-RM circle).
- **AI automation:** Building an AI assistant that answers RM questions on all live contests (RM pilot, WhatsApp rollout next), the first of planned payout and quotation agents, with human approval on every irreversible action.
- **Team:** Set up a Top-25 RM Club for high performers; documented routine work into a handover module for 2 interns.

Business Strategy Intern — Feb 2026 – Aug 2026

- **Reporting:** Took ownership of 9 recurring reports (still running): daily Target vs Achievement, twice-weekly YoY Health Growth by circle and city, contest leaderboards, monthly RM-consistency and high-potential-DP reports.
- **Automation:** Automated report generation and email delivery with SQL (Athena, ClickHouse) and Google Apps Script.
- **Campaigns:** Ran daily Health campaigns on CleverTap; built a React tool that generates WhatsApp-compliant message templates (manual, campaign-brief and bulk CSV modes).
- **Dashboards:** Built RM- and DP-level dashboards (RM performance tracker, cohort tracker) used by Business Heads.

Wee Preside · Remote

Data Analyst Intern — Aug 2024 – Feb 2025

- Designed and deployed Power BI and Tableau dashboards, improving decision-making efficiency by 25%.
- Analysed 50,000+ voter records in SQL, informing 3 key strategy shifts.
- Automated Python data pipelines and reusable reporting scripts, cutting processing time by 40% and reporting effort by 30%.

Smollan · Remote

Data Analyst Intern — Oct 2024 – Jan 2025

- Validated retail sales data across 5 regions and produced weekly Power BI reports for marketing and inventory teams, supporting national product-performance tracking.

SELECTED PROJECTS (code and details on portfolio)

- **Customer Churn Prediction** (Python, scikit-learn, XGBoost): ML pipeline comparing Logistic Regression, Random Forest and XGBoost; 92% recall.
- **FlightTrack Airline Dashboard** (Power BI) · **Customer Segmentation** (Python, KMeans) · **EV Market Analysis** (Python, EDA, 50+ models compared).

SKILLS

Analytics & BI: SQL (Athena, ClickHouse), Apache Superset, Tableau, Power BI, Mixpanel, Excel / Google Sheets
Automation: Python (pandas, NumPy), Google Apps Script, React (internal tools), AI agents / LLM workflows
Business: Incentive & contest design, back-testing, sales analytics, cohort & retention analysis, competitive benchmarking
Platforms & domain: CleverTap, WhatsApp Business (AiSensy, Gupshup); B2B2C health insurance distribution

EDUCATION & CERTIFICATIONS

BBA, Marketing & Entrepreneurship · Swarrnim Startup and Innovation University · CGPA 8.95/10 — 2020 – 2023
Certifications: SQL Intermediate (HackerRank, 2025) · Data Science (Internshala, remote, 2025) · Business Analytics (NSDC, 2024)
